# Pressure Gauge 100mm

## Installation and Specification Guide

### PRODUCT DETAILS

Monitor your system with this easy-to-read 100mm pressure gauge.

HW1004	0-250	kPa
HW1002	0-600	kPa
HW1005	0-1,000	kPa
HW1006	0-1,600	kPa
HW1003	0-2,500	kPa

### FEATURES AND BENEFITS

- Easy to read 100mm liquid-filled dial
- Durable stainless-steel housing
- 3/8" brass thread

# Installation

## WHAT'S IN THE BOX?

- Pressure Gauge

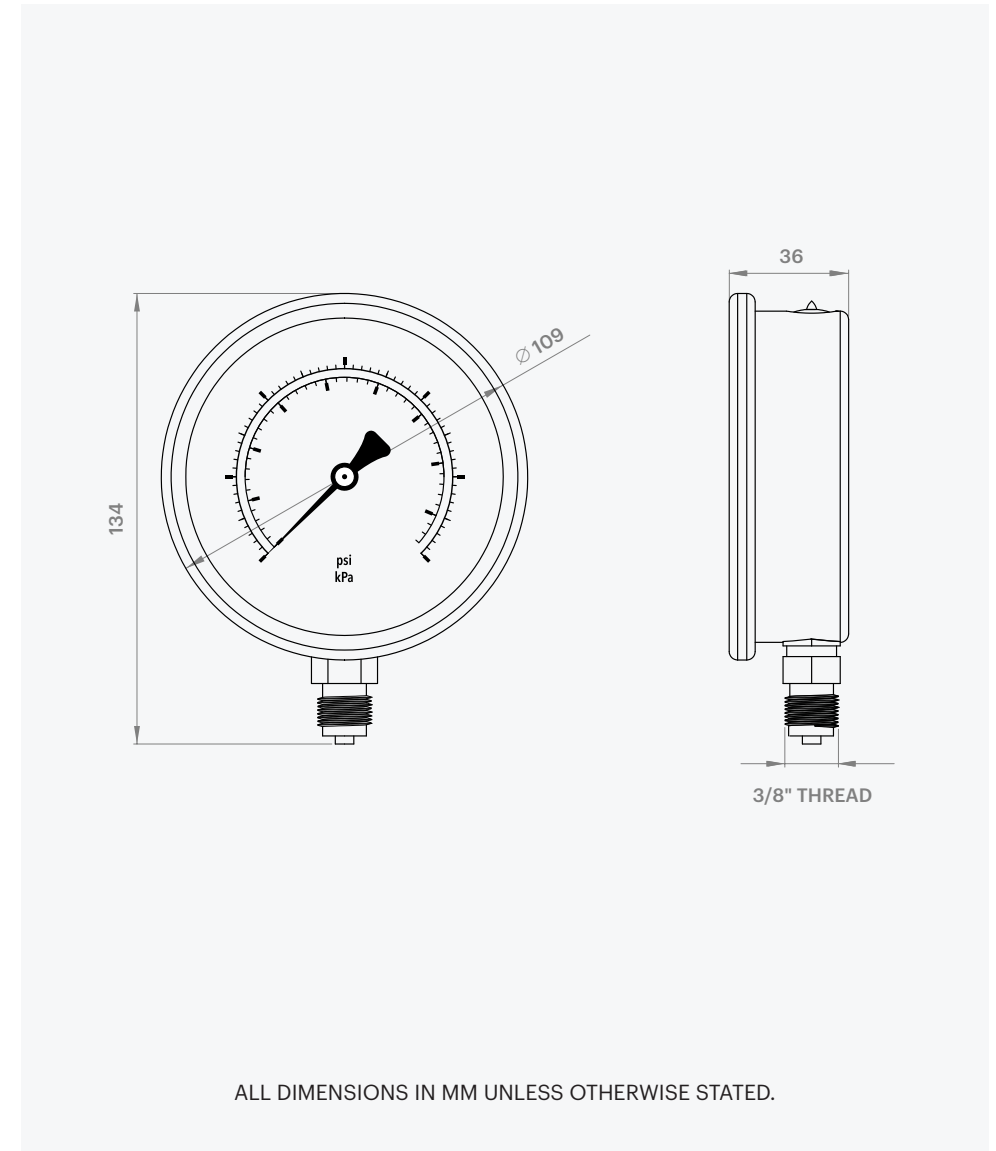

## TOOLS/MATERIALS YOU MAY REQUIRE

- 17mm spanner
- Thread sealing tape
- Knife

## INSTALLATION

1. It is important that you install your pressure gauge in an upright position for best performance.
2. When installing, use the hexagonal flats on the brass threaded section with a spanner to tighten the gauge. Do not tighten the gauge by rotating the stainless steel body.
3. To ensure the gauge seals properly, use an appropriate thread sealing tape on the 3/8" thread.
4. Once the gauge is installed and sealing properly, you may pierce the rubber nipple on the top of the gauge to equalise the internal pressure and improve the accuracy of readings.

## PRODUCT DIMENSIONS
